PROFESSIONAL EXPERIENCE

Front-End Developer

Synnest Valley Technologies, Dharwad

May 2024 – May 2026

- Developed and maintained responsive, user-friendly websites using HTML5, CSS3, JavaScript, and Bootstrap.
- Converted UI/UX designs into pixel-perfect, responsive web pages for desktop, tablet, and mobile devices.
- Built reusable and maintainable frontend components to improve development efficiency and consistency.
- Implemented interactive JavaScript functionality to improve user experience and website usability.
- Optimized website loading speed through image optimization, code optimization, and clean HTML/CSS structure.
- Ensured cross-browser compatibility across Chrome, Edge, Firefox, and Safari.
- Debugged frontend issues using Chrome DevTools and browser debugging techniques.
- Deployed and maintained production websites using FileZilla.
- Collaborated with designers and clients to convert business requirements into responsive web interfaces.
- Followed SEO best practices, accessibility principles, responsive design standards, and frontend development best practices.
- Implemented form validation and client-side input handling using JavaScript to improve data accuracy and user experience.
- Used Git and GitHub for version control, code management, and maintaining project updates during development.

INTERNSHIP

Frontend Development Intern

Cognifyz Technologies

2026

- Designed responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Developed interactive user interfaces following modern web development standards.
- Improved website responsiveness across different screen sizes and devices.
- Collaborated with mentors while completing assigned frontend development tasks.
- Strengthened practical knowledge of responsive layouts, debugging, UI development, and frontend best practices.
